 820671 Black—Up to end of 1974
 822501 Black—After 1974

WEATHER EQUIPMENT—Tonneau Covers

We have sold Robbins tonneau covers to many, many Triumph owners over the years, and the satisfaction level with these covers is very high. They are the same high quality as the Robbins convertible tops which we also sell. They are available in a great range of colours at additional cost, but we keep black, white and tan tonneau covers in stock at The Roadster Factory. Free samples of Robbins materials are available in the colours of your choice upon request by mail or by phone.

WEATHER EQUIPMENT—Robbins Convertible Tops

The Roadster Factory has been handling Robbins brand convertible tops for a number of years, and we have seldom handled any product which generated such a small number of complaints. The quality and the fit is superb.

Robbins tops for Spitfire applications are available from stock in black, white, and tan. Also available on a special order basis are grey, bisque (rawhide), burgundy, and dark blue. Please inquire about these colours. Free samples of Robbins materials are available upon request. All of these tops have zip-out rear windows.

HARD TOP—Hard Top Attachment Details

- 1 Required when soft top is also fitted.
- 2 Required when soft top hood is not fitted.

WEATHER EQUIPMENT—Genuine Covercraft Car Covers

TRF sells traditional poly-cotton and flannel-lined dust covers that are just the thing to protect your car if it is kept in storage at any time. They also function very well as sun protection in hot climates. In addition, we also carry Covercraft “Technalon” car covers which can be used to protect your car outside for all year long. Please note that using a conventional car cover outside for long periods in all weathers is not a good idea, as it will hold moisture inside and actually cause more harm than good. The Technalon cover eliminates the problem, as it breathes to allow moisture to escape from the surface of the car while keeping moisture out at the same time.
