RUBBER BODY SEALS AND GASKETS

DOOR SEALS—BRISTLEFLEX FUZZY DOOR SEALS

These are the new high-quality seals sold by TRF for the last few years. The cross-section of these seals is the closest match to original that you will find for a perfect fit and an original appearance. The colour of the seals looks like cloth but it is actually moulded onto the seal, and it will never come off. Bristleflex seals take advantage of modern technology to produce a seal that fits well, looks good, and lasts a long time.

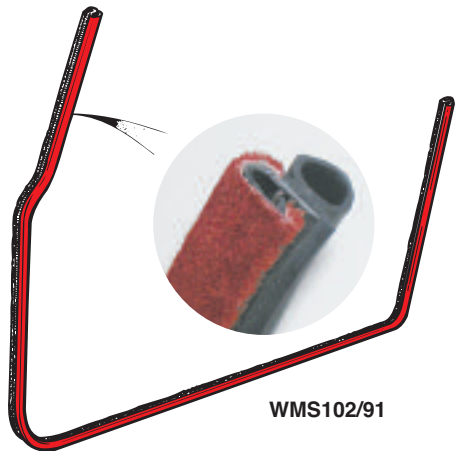

BF101/91

Part No.	Description	No. Off
	FUZZY DOOR SEALS , Bristleflex type, 91-inches	
BF101/91	Fuzzy Door Seal , black	2
BF102/91	Fuzzy Door Seal , bright red	2
BF107/91	Fuzzy Door Seal , shadow blue	2
BF103/91	Fuzzy Door Seal , dark tan	2
BF1031/91	Fuzzy Door Seal , light tan	2

DOOR SEALS—WOOL MOQUETTE FUZZY SEALS

These wool moquette seals are made of the same wool material used on original factory seals for British cars of the 1950's, 1960's, and 1970's. The cross-section is a little larger than original, but the rubber edge seal is pliable, and we do not see any problems with door closing. Since these seals were introduced a year or so ago, we have sold hundreds of them to satisfied customers.

WMS102/91

Part No.	Description	No. Off
